

External Wall Insulation – How can we develop the professionals and crafts for both today and tomorrow?

WORKSHOP:

- Introductions: Trevor Francis and UWTSD Built Environment Students:
- Elliot Carpenter – Are we actually building energy efficient buildings?
- Darren Cuddy - Assessing the efficacy of retrofit measures in traditional buildings.
- Jonathon Bevan – External Wall Insulation, the occupiers view.
- Sam Ley – It's alright building low energy and highly serviced buildings but can the occupiers actually use them?

External Wall Insulation - How can we develop the professionals and crafts for both today and tomorrow?

External Wall
Insulation
(EWI)

Designed to trap moisture

External Wall Insulation – How can we develop the professionals and crafts for both today and tomorrow?

What about the Cold Bridge?

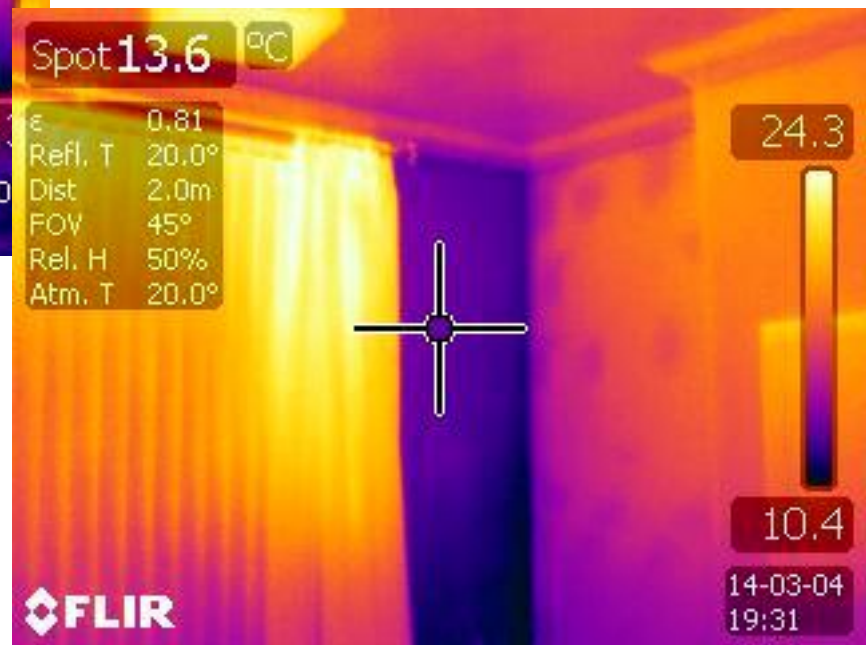

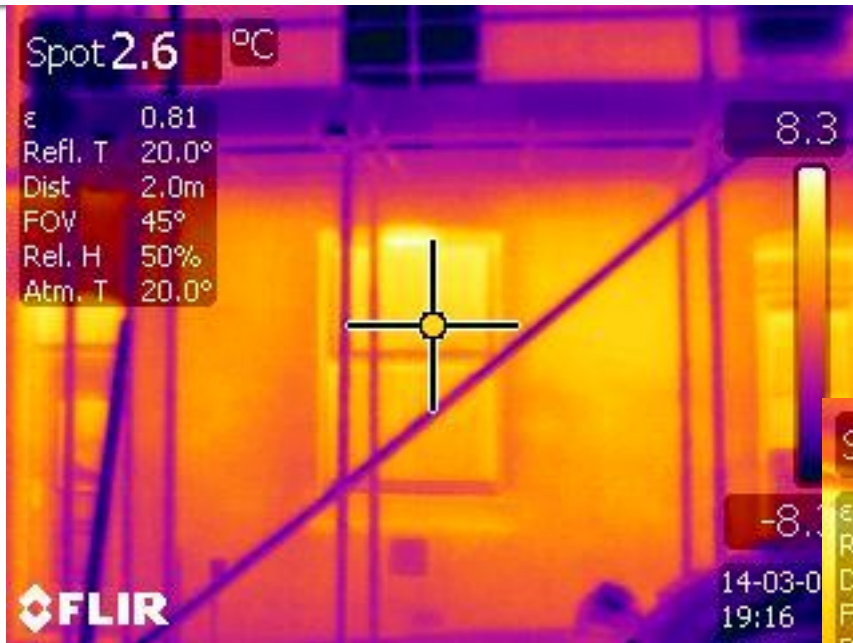

External Wall Insulation – How can we develop the professionals and crafts for both today and tomorrow?

Is this the best we can do?
Expediency. Building detailing is clearly a lost art!

Discussion – Where is the training and who is to do it?

Sustainable retrofit that saves both the planet and the occupant.
Lets not breed damp and mould.

Special thanks to Coastal Housing.
